

Jamf Routines Sub-processors

Jamf may engage vendors to provide services on our behalf. Any vendor who may process Customer Content, as defined in Jamf’s [Software License and Services Agreement](#) (SLASA), are considered sub-processors and are disclosed below. As set forth in Jamf’s [Data Processing Agreement](#) (DPA), Jamf has adequate data transfer mechanisms in place with each sub-processor.

Sub-processor	Location(s) of processing	Purpose of processing
PMG.net	United States	Workflow management

Jamf may use additional sub-processors for customer support – see the sub-processor listing for Jamf Support.
