

# Transform provisioning and **identity management**

*Reimagine how users authenticate to Mac.*

*Binding to an Active Directory domain was a great solution to solve authentication issues for 20 years. But in an age of increasingly mobile devices, staff and students are teaching and learning in a “learn anywhere, anytime” environment without connecting to the school or campus network. Today, being a member of an Active Directory can be a challenge for both staff and students.*

## **Enter Jamf Connect.**

Jamf Connect relieves the binding and gives you the flexibility to centrally and remotely manage users, groups, passwords, and access to education applications and productivity, teaching and learning resources. It's the approach to identity and security, evolved.

## See how Jamf solves provisioning and identity challenges.

Jamf Connect allows for simple provisioning of users from a cloud identity service during an Apple provisioning workflow, complete with multi-factor authentication:

### Account Provisioning and Authentication

Jamf Connect ensures a single cloud identity is used across devices and applications, providing an improved user experience during setup and day-to-day logins.

### Password synchronization

Jamf Connect keeps account credentials in sync between devices and cloud identity providers – even when the password is changed – reducing password fatigue, IT help desk tickets, and user downtime.

### Identity management

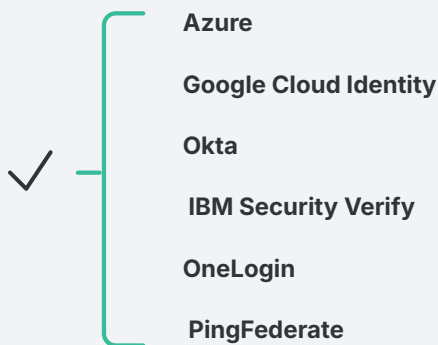

Jamf Connect requires a cloud identity, giving IT admins the ability to monitor who is accessing devices, to leverage cloud admin permissions to service machines, and maintain security and compliance standards across all devices and users.

### Privilege Elevation

Jamf Connect allows users to gain temporary admin rights on demand through their cloud Identity provider (IdP), bringing empowerment to users and saving IT admins time.

## Key identity provider integrations:

### Need additional assistance?

Our global support team is standing by.

Jamf Standard Support is included for Jamf Connect + Jamf Pro users

## Education-specific pricing

Find the best plan to manage and secure school devices for your teachers, students and school.
