

Jamf Premium Cloud Plus

Built from the ground up to support even the most demanding regulatory needs

When security is second to none.

Protecting corporate data and applications is a relentless job. With more applications and data living in the cloud, the need for a secure and controlled cloud environment has never been greater.

Jamf Premium Cloud Plus is exclusively hosted in the United States, and is managed only by US citizens at Jamf.

AWS GovCloud Infrastructure Compliance

To best serve your organization's compliance needs, we leverage Amazon Web Services (AWS) GovCloud, a highly secure environment that meets numerous requirements. To learn more about Jamf's Compliance, please visit our compliance offering page at: <https://security.jamf.com>
