

Cloudwork® PlatformID™

Cloudwork® PlatformID™ by Studentnet makes onboarding and authentication simpler with support for Apple Platform SSO and Extensible SSO.

Cloudwork® PlatformID™ delivers fully integrated identity protections for SSO.

In partnership with Jamf, Cloudwork® PlatformID™ assists with automated account registration for admins managing a large fleet of Apple devices, simplifying workflows and minimizing logins and password fatigue.

Admins and end users benefit from:

- A consistent authentication experience across all services
- Support for multifactor authentication
- Improved logging and monitoring
- Automated account creation for fresh out-of-the-box Macs

Why Cloudwork® PlatformID™?

- Cloudwork® PlatformID™ offers innovative features as one of the first to leverage Apple SSO capabilities.
- Streamlined workflows reduce errors and the time to provision accounts.
- Simpler user onboarding and authentication improves the user experience.
