Jamf Security Assessment

Learn how to meet your security goals.

Would you like a clear summary of your current workstation and server posture? The Jamf Professional Services Team, using a combination of Apple tools and Jamf knowledge, can provide you with a snapshot of where you are. Then, we can work with you to develop a plan of action for where you'd like to be. This plan of action will ensure that you understand how you can use Jamf tools to meet your security goals.

What's covered?

- Workstations deployed within your environment:
    - macOS
    - Network connectivity
- Jamf products:
    - Jamf Pro
    - Jamf Protect
    - Jamf Connect
    - Jamf products

Customer benefits

- Understand your current security posture
- Plan your next steps for your Apple environment
