Sessions

JAMF NATION LIVE

LONDON

TUESDAY 16 JUNE • THE BREWERY, LONDON

11:00 – 11:45

PORTER TUN

Stop Asking, Start Declaring: The DDM-Only Life

A hands-on demo of managing your Apple fleet using only Declarative Device Management — from basic configuration to custom declarations and application deployment, all on the Jamf Platform.

Scott Mackay · Ant Darlow

11:00 – 11:45

KING VAULT

Future-Proofing the Enterprise: A Framework for Secure AI and Managing Technical Complexity

Legacy tools inhibit AI-powered collaboration and add security risk and IT overhead. Learn how a secure enterprise browser, a modern OS, and AI-first apps boost productivity, shrink the attack surface, and streamline IT costs, and how to operationalise security with browser-level controls.

Matt Stevens

12:00 – 12:45

QUEEN CHARLOTTE

Compliance Benchmarks at Scale: API-Driven Automation

Use Jamf Platform APIs to programmatically deploy, edit and report on compliance benchmarks — with custom dashboards, automated workflows, and SIEM / GRC integrations.

Jan Voženilek · Richard Mallion

14:00 – 14:45

PORTER TUN

From Chaos to Control: OS Upgrades at Scale

Take control of OS upgrades across your fleet with Upgrade Manager. Real-world scenarios for consistency, reduced manual overhead, and keeping fleets current — at scale.

Luke Allen

14:00 – 14:45

KING VAULT

Signals Everywhere: A Practical Guide to Apple Telemetry

Endpoint and network telemetry that lets admins manage domains, browsers and AI tools — building cases, setting policies, and keeping users productive while staying compliant.

Tomáš Nespěchal · Scott Mackay

15:00 – 15:30

QUEEN CHARLOTTE

How Nation-State Actors Play Cat & Mouse with Mobile

How sophisticated attackers target modern mobile devices: real-world exploit chains, post-compromise tradecraft, and what defenders should be detecting for.

Elad Shapira

16:15 – 17:00

ALL STAGES

Tips & Tricks

Justin Krisko · Rob Potvin · Luke Allen · Elmo Kuisma

11:00 – 11:45

QUEEN CHARLOTTE

Enrolment & Platform SSO: What's New for '26

The new PSSO-at-enrolment workflow in macOS 26 with Okta and Entra ID, when Jamf Connect Login is still the right call, and how Setup Manager and Setup Checklist polish the user experience.

Armin Briegel · Thomas Ortscheid

12:00 – 12:45

PORTER TUN

Frictionless IT: The Platform Awakening

Platform SSO, Network Relay and Self Service+ in action — keeping the user experience seamless while admins apply the latest Apple management tech under the hood.

Alexander Kozłowski · Michael Thomson

12:00 – 12:45

KING VAULT

EDU

EDU State of the Union

What's new in Apple management for education in 2026 — including the Jamf Identity message and the latest workflows for schools and institutions.

Mat Pullen · Anthony Darlow

14:00 – 14:45

QUEEN CHARLOTTE

Risky Business: Mobile App Security Unpacked

A practical look at mobile app risk: visibility into the apps on your fleet, the risks they introduce, and how to act on that data to reduce exposure.

Elmo Kuisma

15:00 – 15:45

PORTER TUN

Zero-Touch, Zero-Hassle: Secure Access for Apple Fleets

Jamf's Network Relay — MASQUE, Managed Device Attestation and ZTNA — delivering zero-touch connectivity for travelling staff, shared iPads and Mac onboarding.

Craig Donovan

15:00 – 15:30

KING VAULT

EDU

K12 Panel

Practitioners from K12 schools share how they manage Apple at scale — deployment strategies, real challenges, and lessons learned from the field.

Craig Smith

16:15 – 17:00

KING VAULT

EDU

Identity as the Foundation for Modern Higher Education IT

Identity is the foundation of modern higher education IT. A live demonstration of how identity, access, and device management can come together to simplify administration, strengthen security, and improve user experiences across campus.

Carter Dunbar · Ramon Ramon

Zones

● JAMF NATION LIVE

LONDON

Beyond the main stages, JNL is designed to help you get the most out of your day, make connections, and solve problems. Choose your journey.

SIX ZONES, ALL DAY

Jamf Mobility Café

Grab a coffee and stay a while. The Jamf Mobility Café is the place to talk through your mobile goals with Jamf experts and leading partners, from fleet management and mobile security to BYOD and user autonomy. Learn about our Mobility Value Calculator, and pick up exclusive swag only available to Café guests.

JAMF SHORTS THEATRE

Drop in between sessions and pick up something new.

EXCLUSIVE CAFÉ SWAG

Jamf Nation Community Hub

Visit the Jamf Community team to talk through your Apple admin journey and connect with like-minded people. Whether you are here to network or just learn a little something new, the Hub is your meeting point. Ready to share? Step in front of the camera and tell your story with the wider Jamf Nation.

SPIN TO WIN PRIZES

 **Pop, clink, connect.** Meet here for the Women in Tech happy hour at 5pm. Grow your network and meet the amazing women around you.

Jamf Support

Meet the team behind the tickets. Stop by Jamf Support to explore your options, meet the team and get to know the people who have your back.

Success Lounge

Speak with our Customer Success, Pro Services, Education Services and Engineering teams about what you're using, what you're not, and what could make your environment work harder for you. Get up to speed on platform APIs, integrations, workflow optimisation, and the latest management and security features, then meet our Product team to discuss what's coming next on the roadmap.

JAMF SHORTS THEATRE

Bite-sized talks, full-sized inspiration.

Jamf Love ♥

Love Jamf? Tell the world. Submit a review on G2 and walk away with limited-edition Jamf Love swag, exclusive to JNL. Just bring a screenshot of the completion screen to the booth.
